GLASS LABWARE

About us

关于我们

围绕着石英和陶瓷两个基础材料，经过将近20年的不断努力，海博集团发展成为集研发、生产、加工、销售于一体的现代化企业，主要产品有石英玻璃、比色皿、精密陶瓷、微孔陶瓷、厚膜电阻、臭氧发生器、金属纤维毡等。产品远销106个国家和地区。

一直以来，海博集团非常重视产品质量和技术研发，先后通过了ROHS、CE、MSDS、ISO、SGS、TÜV等认证。并拥有注册商标8个，技术专利25个，2020年荣获国家高新技术企业、江苏省民营科技企业称号。

海博集团不仅可以提供优质的产品，还可以为您提供优质的服务。我们可以根据客户的需求，为其量身定做解决方案，开发新产品，实现新应用。

Based on quartz and ceramics, after more than 20 years development, Highborn Group has grown up to a modern enterprise in research, manufacture, processing and sales. We are mainly supplying quartz glass, cuvette, precise ceramics, porous ceramics, thick film resistor, ozone generator, metal fiber felt and we have been offering our products and services to our clients from more than 106 countries or regions.

Highborn Group is paying great attention to the product quality and technology research all the time. We have passed ROHS, CE, MSDS tests and also the ISO9001 authentication. We have 8 registered trademark and 25 patents. Also in 2020, we won the title of China High-tech Enterprise and Jiangsu Private Science and Technology Enterprises.

We can offer not only qualified products, we can also supplying quality service including design, development, export and after sales. With our professional skills, advanced technology and quality material, we can design and develop new products or new applications according to the clients' expectation. We have custom-made new products and promoted the specifications for more than 1000 clients, and we have gotten good reputation from our clients.

1.石英和硼硅玻璃仪器纯度高，化学稳定性好，具有优良的耐化学腐蚀性

2.石英仪器耐1100度高温和耐热震性好，耐急冷急热性好，不易炸裂

3.硼硅玻璃仪器耐温500-600度

4.库存规格多样，也可以接受尺寸定制

5.主要种类有烧杯，烧瓶，量筒，试管，容量瓶等

1.Quartz and Borosilicate glass labware is high purity,good chemical stability, excellent chemical corrosion resistance

2.Quartz labware can resist 1100 degree high temperature and heat shock resistance, good cool and heat resistance and it’ s not easy to crack

3.Borosilicate glass labware can resist 500-600 degree

4.Various stock specification and can also accept size customization

5.The main labware contains beaker, flask, quartz crucible, quartz boat, test tube, volumetric flask and so on
